

## Hitron Coin Online Description

***“Force from Above”*** – the motto of the United States Coast Guard’s Helicopter Interdiction Tactical Squadron (HITRON) based out of Cecil Field in Jacksonville, Florida. The mission for HITRON is to eliminate drug trafficking – the unit is well on its way on that mission. As of December 2011, HITRON has interdicted 209 vessels resulting in seizures totaling over \$10 billion. That means those drugs won’t get on the streets. The coin honors this dedicated United States Coast Guard squadron.

HITRON implements interdiction tactics with helicopters, pursuit craft and specialized crews to ensure that drug traffickers are not successful in attaining their objective. The mission of HITRON is to help protect our shores – to honor HITRON’s vital mission, this handsome commemorative coin has been minted.

The HITRON coin is an attractive nickel commemorative, and the striking red, black, blue, and yellow fields are colored with durable enamel. The front of the coin displays dramatic images. The diagonal blue, white, and red represents the United States Coast Guard. You also find a MH-65C Dolphin, an emblematic eagle, and utility boat accompanied by yellow lightning bolts and the split sun and moon to symbolize that the Coast Guard is always on duty. The backside of the coin proudly displays the United States Coast Guard portal.

For only \$XX.XX, make this unique HITRON commemorative coin a part of your collection right now, simply add this coin to your shopping cart by clicking on the shopping cart icon.
